

# Doing More in America

We're Fresenius Kabi, a global health care company that's doing more in America.

We're building more U.S. capacity and capability for pharmaceutical development, manufacturing and distribution.

We're hiring more passionate people to find more solutions to the nation's health care challenges.

And we're supporting more doctors, nurses and pharmacists in more places and more moments of caring across the country.

## Here's how...

## Investing More To Meet Your Needs

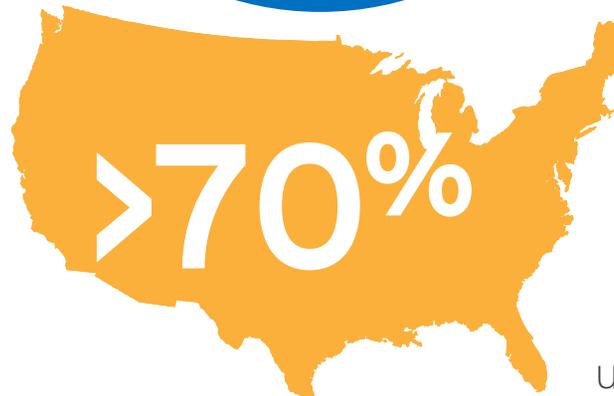

**\$800  
million**

invested in 3 U.S. plants  
in the last 3 years

**\$100  
million**

invested in 3 U.S.  
distribution centers in  
the last 3 years

>70%  
of our pharmaceuticals  
for the U.S. are filled  
and packaged in the U.S.<sup>1</sup>

**400  
million**

units of injectable  
medicines  
delivered  
each year  
in the U.S.

**M(SUPPORT)RE  
IN AMERICA**
